## Independent School

We believe it is our duty that during these difficult times of local and national restrictions to ensure the continuity of education for all our pupils by combining face-to-face learning in school with online learning at home.

This two-way process known as blended learning allows for both school-based and remote learning environments to work hand-in-hand together thereby helping children and young people achieve.

We are aware that the best learning occurs when pupils are engaged in a range of meaningful activities. Therefore, we have adopted a wide variety of remote learning teaching methods to ensure pupils remain online and engaged as we have a determination to use technology as a tool of engagement and not just for the delivery of content.

We acknowledge that educational technology cannot replace the expertise of teachers but it can complement teacher-led learning. We must focus on blended and remote learning strategies that promote pupil engagement.

We work hard to support teachers:

- in their efforts to move between remote and in-class provision.
- to deliver their best both in the classroom or remotely.
- by providing the tools designed to complement teaching both in and out of the classroom.
- by having in place the appropriate safeguarding strategies

We wish to work closely with the School Council and to hear their views and opinions as we acknowledge and support Article 12 of the United Nations Convention on the Rights of the Child that children should be encouraged to form and to express their views.

We as a school community have a commitment to promote equality. Therefore, an equality impact assessment has been undertaken and we believe this policy is in line with the Equality Act 2010.

We all have a responsibility to ensure equality permeates in to all aspects of school life and that everyone is treated equally irrespective of age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual
